

Alternative Version of the Cosmological Argument (by Norman Geisler)

1. Some limited, changing beings(s) exist(s).
2. The present existence of every limited, changing being is caused by another.
3. There cannot be an infinite regress of causes of being.
4. Therefore, there is a first Cause of the present existence of these beings.
5. The first Cause must be infinite, necessary, eternal, simple, unchangeable, and one.
6. This first uncaused Cause is identical with the God of the Judeo-Christian tradition.
